

WILDLAND FR FACE MASK

Our Wildland Face Mask is designed as a form-fitting face piece that offers comfort and breathability while reducing exposure to environmental elements.

FEATURES

- Inherently flame-resistant
- Ergonomic bi-panel form fitting face piece designed for superior breathability
- Designed to fit the contours of the face to improve the ability to breath more freely
- Internal wire at the top of the nose to form fit the mask so it stays in place
- A single high-temperature NFPA 1977 rated cord lock for quick adjustment and ease of removal
- Ideal for use as part of an effective Social Distancing policy for wildland firefighters
- Nomex® stitching for durability and trusted FR performance
- Body of face mask is made from NFPA 1977 fabric
- **Materials:** Tecasafe 5.8 ounce

SIZE: One Size COLOR:  Wildland Yellow
