WILDLAND PACK COLLECTION

FIREBALL™ PACK

NFPA 1950

When remaining lightweight is important for you, but you need a pack large enough to fit your lunch, the Fireball™ Pack is perfect for you.

SPITFIRE™ PACK

NFPA 1950

When storage is a must, the Spitfire™ Pack is the work horse that you need. The Spitfire™ is perfect for anyone needing to carry more gear throughout the day, without compromising comfort.

FIREFLY™ PACK

NFPA 1950

If modularity is important to you, look no further than the Firefly™ Pack. Being the largest pack in our collection allows you to hold more essentials for long days on the fireline.

SPYDER GEAR PACK NFPA 1950

Simple, lightweight, and modular. When you need to move fast, and keep things as light as possible, the Spyder Gear Pack will help you succeed.

BUSHWHACKER™ PACK NFPA 1950

The Bushwhacker Pack is loaded with features and built to perform across the fireline, no matter your role. It's unique "H" style harness offers exceptional load control and stability allowing you to focus on the job.

CHAINSAW PACK

Whether you are hiking in for trail work, heading to remote fire, or a part of a felling mod, the Chainsaw Pack allows you to load the weight of your saw and gear on your hips rather than your shoulder. The Chainsaw Pack is uniquely designed to fit any size saw.
